# Governmental Entities

Andrews Hooper Pavlik PLC (AHP) can provide a wide range of accounting and consulting services to your state, city, county, or township governmental entity, as well as your component unit or school district. Because your accounting requirements differ significantly from those of the private sector, we offer practical advice from highly trained staff to assist you with the implementation of required standards.

Our annual audit service can provide assurance to others, such as taxpayers and regulators, that the rules of the Governmental Accounting Standards Board (GASB) or Financial Accounting Standards Board (FASB) are being followed. We can assist you in identifying opportunities for improvement within your current system and address potential internal control, accounting system, and management process issues. We also have extensive experience with OMB Uniform Guidance Audits as well as grant-specific audits.

In accordance with Government Auditing Standards, we successfully completed our most recent peer review and received a report with a rating of pass - the highest level. This report is on public file at the AICPA's Center for Public Company Audit Firms (CPCAF). We provide highly trained professionals for every client engagement, which means you can count on us to meet your needs and exceed your expectations.
